

# Accessible Kitchens

MADE FOR YOU

# The heart of every home is the kitchen

Our kitchens say a lot about us; our style, our needs, our family, our friends, how we like to live.

At AKW we make award-winning kitchens that our customers love. Each kitchen is specifically designed to your abilities, available space and personal taste.

No other manufacturer offers the same range of special accessories and incredible features, because no one else incorporates inclusive design at every stage of the process. From the type of unit to the layout of the room, AKW creates accessible kitchens which support your independent living, look amazing and work brilliantly.

That's why AKW is so widely recommended by occupational therapists, local authorities, housing associations... and our customers.

## THE AKW DIFFERENCE

# Expertise you can trust

At AKW we focus exclusively on making fully accessible kitchens and bathroom products. That's all we do, and it's why we're so good at it.

3D visual

Our surveyors provide a highly detailed set of drawings for you and your OT, specifying every measurement down to the smallest detail, along with 3D visualisations of what your kitchen will look like.

This ensures that your installer knows exactly where and at what height to install each item. No other manufacturer provides the detailed drawings we do, because no one else designs specialist fully accessible kitchens fitted exactly to your physical abilities and requirements.

Plan drawing

Front elevation

Our **specialist surveyors** are the most experienced in the UK and work closely with OTs, carers, architects and housing associations to create the most functional products on the market. As well as the layout of your room, they factor in accessibility,

functionality and your abilities. A **unique checklist of 150 questions**, detailed measurements (more than any other manufacturer) and time spent with you, and your carer or OT, creates a kitchen that's **expertly tailored to you** and your family and a pleasure to use every day.

Our simple three stage survey process:

1

Within 10 working days of your call an AKW surveyor undertakes a site survey.

2

The design combines healthcare professional reports and your specific needs.

3

Within 5 working days, we'll provide a 2D plan and 3D visual of how your new kitchen will look.

THE AKW DIFFERENCE

# Unique features you'll love

It's the small things that make a difference, but with an AKW accessible kitchen every detail, both big and small, has been carefully considered with you in mind.

Here we show you just some of the incredible features that make our kitchens both unique and a pleasure for users of all abilities.

**Pull-Out Heat Drawer** at exactly the right height for easy and safe side transfer from the oven.

**Pull-Down Baskets** glide effortlessly, putting cupboard contents easily within reach.

**ActivMotion® Wall Units** descend at the push of a button so you don't have to stretch or strain.

**Larder Units** with Slide-Out or Swing-Out baskets give easy access from both sides.

**L-Shape Rise and Fall Units** support hobs, sinks and up to 3 metre worktop lengths. Activated at the push of a button, it is the ultimate and easiest way to adjust the worktop height to suit everyone.

**Extra Tall Deep Recessed Plinths** allows wheelchair foot-plates to fit underneath.

**Wall Units** are set lower than normal above the worktop so you can reach up more easily.

**Ovens** are set at a lower height, enabling safe and easy transfer of hot dishes onto the side.

**Corner Units** feature easy-glide pull-out mechanisms, maximising storage and access.

**Adjustable Legs** mean units and worktops are tailored to the perfect height for you.

**Fixed Worktops** are also set at the correct height and combine well with Rise and Fall Units.

**Single Doors** on tall units are easier to open and simpler to manage for wheelchair users.

A handy **Pull-Out Ironing Board** tucks neatly away in a drawer when not needed to save space.

**Extra Wide Hinges** allow doors to open much wider than normal for better, easier access.

**High-Sided Drawers** give extra stability, strength and ensure nothing falls out of the side.

**Shallow Sinks** let wheelchair users get much closer and are heat-insulated to protect legs.

**18mm Carcasses** are at the heart of a much stronger, longer-lasting kitchen.

**ACTIVMOTION®**

# Rise and Fall Units for ultimate comfort

The ActivMotion® Rise and Fall range from AKW is at the centre of most inclusive kitchens, whether it's an adaptation or a fully accessible kitchen.

The conveniently placed controls allow you to adjust worktops to exactly the right height for you, and the shelves of your wall units can magically descend to within reach at the simple push of a button.

ActivMotion® Worktops come in a wide range of configurations and sizes to suit every user and every room. They can also be used to support sinks and hobs, making them ideal for wheelchair users (giving easy access underneath) and multi user areas.

The units can support sinks or hobs. Users can get much closer for safety and comfort.

The convenient push button control allows you to adjust the height of the unit to suit.

A touch-sensitive safety strip on the underside of the unit shuts off power on contact.

**ACTIVMOTION® TABLES**

Suitable for gas or electric hobs

Space underneath allows you to get closer and be safer

Units up to 3 metres long on both sides of the L-shape

Free-standing and modesty panel versions

Variable height is ideal for multi user areas

Safety strip cuts off power on contact

Shallow sinks are heat-insulated for safety

Easy push button height control

**ACTIVMOTION® CUPBOARDS**

Shelf bars keep contents securely in position

Descends at the push of a button

Places contents within easy reach

Tucks neatly away when not in use

# INDEPENDENCE

## Designs tailored for you

An Independence Kitchen is made to measure for your individual needs. An enhanced range of colours, doors and worktops, along with colour matched fascias, carcasses and other bespoke options, puts you in control of your ideal kitchen.

Butcher Block Medium

Ebony Stripwood

Antique Block Walnut

Tobacco Oak Ultra Matt

Andora Brown Granite

Maryland Fonce Surf

Our worktops incorporate Sanitized® anti-bacterial protection. Odourless, non-toxic and taste free, it reduces bacteria and microbes by 99%.

# Even more great features

Innovative features designed to make your life easier and your kitchen a safer, more accessible and more enjoyable environment for everyone.

### Tall Plinths and Adjustable Legs

Some manufacturers will hang their base units, claiming that makes the kitchen accessible.

We use adjustable legs with tall and extra deep plinths. This ensures the correct height and that dirt can't easily collect underneath, where it's difficult to reach.

### Breakfast Bar

- + Breakfast Bars are adjusted to the correct height for the primary user
- + They provide a comfortable and stylish area at which to work, eat and chat
- + Supplied as a standard worktop. Length and corners can be customised on site by installer.

### Electric Hobs

- + Ceramic and Induction hobs provide valuable extra worktop space when not in use
- + All come with front controls for easier access, so you don't have to reach over hot surfaces

### Tailored Worktop Heights

Our surveyors identify exactly the right worktop height for you.

Standard worktops are positioned to accommodate appliances, but AKW can 'step' your worktop height according to your requirements.

### Drawers not Doors

- + We recommend drawers in base units rather than cupboard doors
- + Drawers are easier to open and manoeuvre around than doors, giving easier access to the contents
- + All our Independence units feature soft close doors and drawers

### Raised Base Units

- + The bottoms of our base units can be raised higher off the ground
- + This means less bending down for those with restricted mobility or in wheelchairs

# Appliances

A range of appliances carefully selected for accessible kitchens. Each one has inclusive features which make them easy and safe to use.

### Oven Features:

Ovens are one of the most important features in any kitchen and especially so in an accessible kitchen. Features such as side opening and Slide & Hide doors provide much safer access than conventional bottom-hinged doors. Optional anti-tip telescopic shelf kits provide extra safety and easy access. Setting the centre of the oven at the same height as the work surface makes transferring hot items much easier and large easy turn knobs help users with limited dexterity.

### Beko Stainless Steel Single Oven

- + Upper and lower heating elements for even cooking
- + Telescopic rails included

Code: BEOVL/ BEOVR  
(Left/Right hand hinged)

### CDA Stainless Steel Single Oven (Reversible hinges)

- + Integrated anti-tilt shelves
- + Reversible side opening door
- + Touch control, programmable clock/timer

Code: LIBAPP096

### Neff Stainless Steel Single Oven

- + Slide&Hide® fully retracting oven door
- + CircoTherm® heat system for even cooking on three levels
- + Self-cleaning catalytic coating

Code: LIBAPP030

### Zanussi White Single Oven

- + Heat activated catalytic cleaning
- + Telescopic rails included
- + Fan cooled double glazed door

Code: ZOVSWL/ZOVSWR  
(Left/Right hand hinged)

### Zanussi Stainless Steel Single Oven

- + Heat activated catalytic cleaning
- + Telescopic rails included
- + Fan cooled double glazed door

Code: ZOVSXL/ZOVXSR  
(Left/Right hand hinged)

### Neff Telescopic Shelf Kit

- + Prevents shelves from dangerously over extending
- + Provides safe front and side access to heavy or hot dishes

Code: LIBAPP119

**Hobs:** (all available in 2 or 4 zone options)
